## Address Book - Query

Posted by mesh - 2007/09/02 23:20

---

Hi,

I currently have the address book installed on my joomla page, but i don't require half the things is there a way of removing them from the search results I.E. ICQ/MSN/Yahoo and all that i dont need, the address i dont need, and i dont need work number (although i could do with fields being changed so for work number if it could extension etc..)

now is that possible, and if so how?

Thank You in advance

sorry, how? is this in joomla admin panel?

i clicked on menu, then my user menu, clicked on my address book..

and it comes up with show icq etc etc.. and its clicked no but still when you look at an address entry it still shows the fields there just with no address next to it?

how about changing the labels aswell? is that possilble?

thanks :)

please delete 'link' topic incorrectly posted

[http://himeshpatel.org/home/index.php?option=com\\_adress&op=view&Itemid=28&adressid=1](http://himeshpatel.org/home/index.php?option=com_adress&op=view&Itemid=28&adressid=1)

here is the link for the address book thanks
