
More social bookmarking links

The ability to add a post to del.ici.ous is cool; how about more bookmarking? Facebook, Digg, Slashdot, Technorati etc?

There are already one or two mambot/components that can do this, but you might want to think about adding this ability to mxcomment, since del.ici.ous is already part of it. Just a thought.

Social bookmarking is a method for Internet users to store, organize, search, and manage bookmarks of web pages on the Internet with the help of metadata.
