
CSS Pagnation for Index A-Z

Posted by lay - 2007/12/29 19:00

Hello, i'm using com_alphacontent\alphabet\alpha0.php for indexlisting and i would change the look like the standard Joomla pagenav

```
.pagenav {
  text-align: center;
  font-size: 11px;
  font-weight: bold;
  border: 3px double #cccccc;
  width: auto;
  background: url(..images/button_bg.png) repeat-x;
  padding: 0px 10px;
  line-height: 20px;
  margin: 1px;
}
```

```
.pagenavbar {
  margin-right: 10px;
  float: right;
}
```

Have anybody done this and can post the code or how to use an own CSS class for the index?
