
Exclude Category (or Section)

Posted by Morktral - 2008/07/08 08:39

Is it possible, to exclude Sections and categories? I have looked around but did online find the "include" parts...

Ty

You can't exclude but you can choose your sections and categories. It's the same thing and display same result.

How can I select section and categories?

thank you

Just enter the ID of your sections/categories in menu parameters seperate by a comma.
